I wasn't aware until recently that there is a petition circulating to permanently close Hayes between 🗨️ Gough and Octavia.... Not a fan There is a counter petition. Regardless of what side you're on you should (IMHO) sign one or the other...

Signed. We don't need it permanently closed off. We have Proxy and a park there already.

Just spent time in Paris which had much more traffic than San Francisco and folks there are excited about their plan to pedestrianize 500 MORE streets. It is fantastic!

Good for Paris. I haven't been in a while - but I don't think it's a good idea for SF. People can be heard one way or the other on this issue by signing the petition they agree with.

Curious about your objection to permanently opening up Hayes to pedestrian and community activities.

Robin Levitt Yah, there's a park right there. There's no need to close off the street for more public space. I don't like the open streets even on the weekends. Hayes Valley is where I live, and I don't like it being the neighborhood where the marina folks come when they want to get out of the marina on weekends. I don't like the garbage overflowing on the weekends, the fact that the cash machine doesn't have any cash etc...I realize others like it. But making it permant - No thank you. Curious why you want it and thinks it's necessary??

Proxy has long been slated to become an affordable housing site... it's Parcel K. Proxy was meant to be a short term interim use, which has stretched into long-term because they haven't found a developer yet. But as far as I know, it's still in the works to become housing.

Barbara Babs Kitty Early I am prettty sure development of proxy is on hold - <https://www.sfchronicle.com/.../s-f-neighborhood-housing...>

Shane Boulds yes it has stalled -- but they haven't taken it off the list permanently...

Barbara Babs Kitty Early I would be stunned if this went forward. Even So we have the park.

Shane Boulds well it was slated to be affordable housing by ballot measures years ago like 25 some years ago ... so there would have to be some legal wrangling to change that meantime, they just keep putting it off!

Barbara Babs Kitty Early why are you bringing this up? It's a completely unrelated issue to what the post was about. Whether Hayes St is permanently closed has nothing to do with housing on Parcel K. And for what it's worth, a big reason Preston was voted out was his stance on Parcel K

Mike Anders I was responding to somebody else who brought it up earlier - they said we "have proxy & the park already" ... but we may not have proxy forever. That was my only point - following up on that comment because proxy is not guaranteed to stay. It may very well end up as housing in future, so closing the street would preserve some open space

Probably the same people who voted to close great highways
