To Lloyd Silverstein <lloyd@opticalunderground.com>

Thanks Lloyd for the note.

Yep, we're on it

Bilal,

There continues to be a very small but vocal minority of folks (all of them outside the boundaries of the closures) that muddy the waters on our successful street activations. I heard today at the ISCOTT hearing that they plan to lobby you and the mayor. In our discussions, you have supported these activations, and I hope we can still count on your support. If you have any questions, or need some context, please let me know.

Looking forward to seeing you next month about our CBD efforts.

Best,
